

# Product Safety Information

## Standalone MIDI/DIN-Sync Processing Tool

### Important Safety Information

This product is a standalone MIDI/DIN-sync processing tool designed for use in music production and performance environments. **Please read this safety guide thoroughly before using the product.**

### General Warnings

#### 1. Electrical Safety:

- Use only the provided external wall adapter or a manufacturer-approved equivalent.
- Ensure the power outlet voltage matches the adapter's input requirements.
- Do not use the device if the wall adapter, cable, or connectors appear damaged.

#### 2. Risk of Electric Shock:

- Do not open the device enclosure or attempt to repair the product. Internal components carry electrical currents that could cause injury.
- Avoid exposing the device to moisture, liquids, or excessive humidity to prevent electric shock or damage.

#### 3. Heat Generation:

- The device may generate heat during prolonged use. Ensure adequate ventilation and avoid covering the unit while in operation.
- Do not place the device near heat sources such as radiators or direct sunlight.

#### 4. Choking Hazard:

- The product contains small parts and should be kept away from children under 3 years old.

#### 5. Cables and Connections:

- Route cables safely to avoid tripping hazards or damage.
- Do not force connectors into ports; ensure alignment before insertion.

#### 6. Environmental Considerations:

- Do not expose the product to extreme temperatures, vibrations, or impacts, as these may damage the device or impair functionality.

### Usage Instructions

1. Connect the provided wall adapter to a power outlet that matches the adapter's voltage rating.
2. Plug the adapter into the device's power input port.
3. Use appropriate MIDI or DIN-sync cables to connect the tool to your other equipment, ensuring proper alignment of connectors.

4. Turn on the device using the power switch (if available) and configure it as instructed in the user manual.

## **Maintenance and Cleaning**

- Disconnect the device from power before cleaning.
- Use a dry or slightly damp cloth to clean the exterior. Avoid using harsh chemicals or solvents.

## **Environmental Safety**

- At the end of its life, dispose of the product, cables, and wall adapter in accordance with local electronic waste recycling regulations.

## **Liability Disclaimer**

- The manufacturer is not responsible for injuries, damages, or malfunctions caused by improper use, unauthorized modifications, or the use of non-approved power adapters or accessories.
